## About Lindnerhof

---

Lindnerhof has set itself the task of introducing innovations in the field of tactical equipment.

In our in-house research and development department, experts from different fields are working together in a synergistic pooling of knowledge to optimize our products for the given purpose through innovation.

The dynamic and mission-oriented thinking of our employees is reflected in the high degree of modularity of our product range. By our own standards, tactical equipment should always offer maximum flexibility, in order to quickly adapt to constantly changing demands. We manufacture our products to the highest level of perfection in terms of finishing and material quality. Multi-level quality control in the production cycle is the basis for Lindnerhof's commitment to quality: we develop products that deliver reliable performance, even under the most adverse conditions.

## Lindnerhof Taktik

### 15 years of Lindnerhof

---

This year Lindnerhof looks back on 15 successful years full of innovative products and satisfied, faithful customers.

The success story began in 2006. At that time, later founder and Managing Director Josef Sixt was a member of the special commando forces. Like many other soldiers, he felt that the tactical nylon they wore was no longer keeping with the demands of the 21st century. He resolved to do a better job and dedicated himself, with much thought and passion, to the manufacture and design of tactical equipment. After all, a life may depend on it. This commitment, technical sophistication and experience drew the attention of former comrades to the products. In the course of the year, large-scale production of the equipment started under the company name Lindnerhof.

Since this time, Lindnerhof has always placed great emphasis on direct customer contact, as this is the only way to create truly application-oriented equipment. In many cases, it is not simply a matter of implementing customer requirements – Lindnerhof's experience and expertise can be relied upon for the optimum design of equipment for the proposed mission.

**A multi-stage monitoring system ensures that our products are of premium quality. Our procedural standards are subject to an ongoing process of optimization. We are dedicated to constantly improving the performance of our products.**

### **Certified quality**

---

Extreme situations are the test of whether products are able to deliver what is expected of them. In the case of tactical equipment, robustness and intuitive operation are what counts. To ensure that the quality of our products can be measured according to accepted standards, we manufacture in conformance with ISO 9001. Our products are used in the day-to-day operations of special defence and security units. From these organizations we receive valuable feedback that is used to further optimize our equipment.

**Lindnerhof uses only materials that have been tested for optimum suitability, preferably from Germany and other EU countries. Our products are available in up to five standard colours and camouflage patterns.**

Deviations in colour are possible

**Long-lasting performance**

### CORDURA® and webbing

Developed by the Swiss company Invista, the brand name CORDURA® has achieved renown due to its excellent material properties. The fabric consisting of polyamide is lightweight, yet extremely robust.

Compared to conventional nylon, CORDURA® has a significantly greater abrasion resistance. The slightly roughened surface of the material produces a textile character and is soft to the touch. The impregnation gives CORDURA® its water- and rainproof properties. Furthermore, the material does not absorb water, increases only slightly in weight when damp and dries quickly.

### Proven in missions worldwide

The ruggedness of the material is the factor that makes CORDURA® reliable and popular with tactical units around the globe. Extremely tear resistant polyamide has become the basis for state-of-the-art modular tactical systems. The fabric and MOLLE loops retain their shape, even after years of intensive use. What is more, they make the wearer fully independent of prevailing weather conditions, for CORDURA® exhibits the same behaviour at all temperatures in terms of haptics and elasticity. The easy-care material can be simply cleaned in the washing machine and retains its colour fastness, even after multiple cleaning processes. Lindnerhof recommends equipment made of CORDURA® for use in all climatic zones. Besides the standard colours such as 5-colour camouflage, coyote, MultiCam, black and stone grey, it is also available in country- or order-specific colours and patterns.

### Custom design

---

This catalog contains only a small selection from our full product range. In addition to ready-made articles, we implement special production runs that are fully geared to your individual requirements. Our experienced in-house development department will provide competent advice and offer flexible solutions for your needs. For major contracts and custom-made items, please contact us directly.

## **Plate carriers and ballistic accessories**

Recommendation

**Plate carrier LT042**

Art.: 6600411

Plate carrier LT042 is versatile and modular. It can be expanded by additional ballistic protective elements or zip panels to create a heavy-duty protective vest. Reliable 25 mm hook buckles are used on the shoulders. At the side there are three closable openings for internal cable runs, e.g., radio cables. The MOLLE rows consist of a 20 mm webbing and are PALS-compatible. Zip fasteners on the rear side are provided for the attachment of accessory panels. An integrated plate retaining strap permits the mounting of plates smaller than SAPI L. Side ballistics and accessory pouches can be attached to the double waist belt.

**Product group: Plate carriers**

**Plate carrier, releasable LT025/5**

Art.: 6600482

Proven release system. Front and rear section of the plate carrier can be quickly and easily separated with the aid of a cable pull system.

The plate carrier LT025/5 has separate pockets for soft and hard ballistics on the front and rear. Detachable back padding, integral release system and chest rig extension are the useful features of the plate carrier. In combination with a suitable chest rig and the respective adapters LT251 (p. 37) the quick-release system retains its full functionality. The respective spare parts kit for the LT025/5 (p. 27) can be ordered separately.

Compatible with  
LT042

### Panel front RP230

Art.: 6601358

The detachable front flap is used for quick reloading of the carrier equipment. A quick adapter system makes for simple changing. The front flap can be mounted on all carrying systems with loop material on the front.

Weight: 76 g  
Outer fabric: Hybrid Laminate

Dimensions: 19 / 24.5 cm

Compatible with  
LT042

### Panel triple multi-caliber Velcro-attachable

Art.: 6601359

In the add-on front flap there are three multi-caliber pouches firmly sewn onto the platform. It can be mounted on all carrying systems with loop material pad at the front. The quick adapter system saves time when replacing the front flap.

Weight: 281 g  
Outer fabric: Hybrid Laminate

Dimensions: 18.5 / 25 cm

Compatible with  
LT042

### Panel, back, zippable LT632

Art.: 6600513

The zip panel is attached to the back section of the plate carrier by means of zippers and loops. On the outside are 20 mm MOLLE straps and an opening designed for breacher tools. A fold-out extension is provided for the insertion of a bolt cutter.

Weight: 202 g  
Outer fabric: Cordura

Dimensions: 31 / 31 cm

Compatible with all LT plate carriers

### Body pads, Velcro-attachable, long LT250

Art.: 6600672

Equipped with 3D-Mesh fabric, this padding greatly increases the wearing comfort. The Velcro-attachable back pads can be mounted on the front and rear plates of all plate carriers and carrying systems with the aid of the loop.

Weight: 66 g  
Outer fabric: Cordura

Dimensions: 33 / 8 / 1 cm

Compatible with all LT plate carriers

### Body pads, Velcro-attachable, short LT250-1

Art.: 6600673

As pads LT250, only shorter.

Weight: 59 g  
Outer fabric: Cordura

Dimensions: 29 / 8 / 1 cm

Compatible with all LT plate carriers

### Shoulder pads HL105

Art.: 6600244

Wearing comfort is significantly enhanced by the shoulder pads. The 3D-Mesh fabric pads are supplied as a pair and can be combined with all Lindnerhof tactical vests and plate carriers.

Weight: 47 g  
Outer fabric: Hybrid Laminate

Dimensions: 21.5 / 7 / 1 cm

### Spare parts kit for plate carrier LT025/5

Art.: 6600489

The set includes spare parts belonging to the release mechanism and comprises a Velcro-attachable release grip at front (incl. cable), release grip at back (incl. cable), running loop, standard loop with washer, 2x shoulder strap attachment with cable guide, 2x Velcro-attachable cable guide, instructions.

Weight: 233 g

**With modular chest rigs, tactical setups can be individually and quickly adapted to any situation – maximum flexibility at low additional weight.**

### **Combinable chest rig elements**

---

Due to various possible combinations within the series and optional extensions with plate carriers and protective vests, chest rigs from Lindnerhof are suitable for all missions. The carrying system can be individually tailored to any situation. For enhanced wearing comfort, rigs can be fitted with the padded carrying system.

**Chest rig, 2-part LT366**

Art.: 6600700

Besides use as an independent chest rig, it also serves as an extension for ballistic vests. Internal hook pads improve the stability of the carrying system on the plate carrier and protective vests. The chest rig has storage compartments with Velcro fasteners on both sides.

**Product group: Chest rigs**

Weight: 406 g  
Outer fabric: Cordura

Dimensions: 18.5 / 72.5 cm

**Chest rig, single part LT367**

Art.: 6600701

With the storage compartment, accessible from both sides, the chest rig offers plenty of space for transporting equipment. The chest rig adapter set enables it to be combined with protective vests and plate carriers. An inside hook pad gives it additional hold.

**Product group: Chest rigs**

Weight: 348 g  
Outer fabric: Cordura

Dimensions: 16 / 68.5 cm

Limited

### Chest rig 2-part HL266

Art.: 6600331

The chest rig with a large modular mounting surface, detachable carrying frame and flexible backstrap features a high bandwidth of adjustments and applications. It can be used either as an independent unit or an extension for ballistic vests.

#### Product group: Chest rigs

### Chest rig LT197

Art.: 6601452

Designed as an independent mini rig, with its eight rows of MOLLE loops the LT197 setup offers multiple possibilities for modular extension. The cross-web on the rear side of the carrier prevents it from slipping sideways. The removable shoulder straps and hook pad on the inside provide additional hold, enabling the rig to be used with plate carriers. An integral storage compartment offers space for maps or other accessories.

Compatible with  
LT366, LT367, HL266

### Chest rig carrying frame HL264

Art.: 6600329

The padded carrying frame with 3D-Mesh fabric is a comfortable alternative to the shoulder straps supplied with the chest rigs. It can be used without further accessories with the following chest rigs: LT366, LT367 and HL266.

Weight: 180 g

Outer fabric: Hybrid Laminate

Dimensions: 19.5 / 25 / 0.5 cm

Compatible with  
LT025/5

### Chest rig adapter LT251

Art.: 6600674

The two-part adapter set enables chest rigs to be combined with the LT025/5 without impeding its release function. The adapters are for use without the waist belt of the chest rig and the metal hooks on the waist belt of the plate carrier.

Outer fabric: Cordura

Compatible with all  
LT chest rigs

### Adapter chest rig RMPL144

Art.: 6601324

The adapter set enables the current series of chest rigs to be combined with a plate carrier or protective vest. The advantage of this combination is fast removal and changing of equipment, without relinquishing the protection of the vest.

Weight: 13 g

Dimensions: 5 / 4 / 1.5 cm

### Multi-purpose pouch back HL081/2

Art.: 6600228

Weight: 417 g      Dimensions: 34 / 19.5 / 10 cm  
Outer fabrics: Cordura, Hybrid Laminate      Volume: approx. 6.5 l

Rear side with PALS fasteners

Can be combined with plate carrier

Lashing straps on the underside

Main compartment with hydration pouch

Compact extension for plate carriers and protective vests: back pocket HL081/2 is secured by four PALS straps. With the storage compartment at the front, it offers plenty of room for equipment and documents. The separate pockets for the hydration bladder and opening for the drinking tube are compatible with most common hydration systems. Lashing straps on all sides enable the pouch to be tightened.

Compatible with HL081/2

### Adapter set LT835

Art.: 6601813

The adapter set connects the back of the multi-purpose pouch directly with plate carriers LT042 and HL044. The SnapOn buckles give ready access to the pouch.

Weight: 180 g

Recommendation

Can be used as a plate carrier rear section

Mounted directly on a plate carrier

Hip belt with buckle fastener

Removable helmet holder with storage section

### Backpack HL334

Art.: 6600352

Weight: 962 g  
Outer fabric: Hybrid Laminare

Dimensions: 38 / 28 / 9 cm  
Volume: approx. 9 l

The modular backpack HL334 can be used as a daypack, backpack or back section for ballistic carrying systems with hook buckle. The integral plate slot offers room for ballistic plates of sizes SAPI S-XL, and NATO standard 250 x 300. The shoulder carrying straps are removable, and with the enclosed adapter the backpack can also be mounted on plate carriers. Compatible with all plate carriers except LT025.

**Belt LT465**

Art.: 6600884

Belt LT465 can be combined with the appropriate modular belts. The belt is closed by simply folding back the strap with hook strip.

**Product group: Belts**Modularity Durability Serviceability 

Weight: 95 g (Size L)  
Outer fabric: Cordura

Bestseller

**Belt LT565**

Art.: 6600889

With 20 mm MOLLE straps on all sides, belt LT565 can be used for transporting various items of equipment. It can be combined with Lindnerhof trouser belts by means of hook patches. The inner belt is easily replaceable, e.g., with an Edelrid belt. An opening is provided on both sides for wearing leg holsters.

**Product group: Belts**Modularity Durability Serviceability 

Weight: 297 g (Size L)  
Outer fabric: Cordura

Dimensions: 82.5 / 6.5 / 1 cm (Size L)

Limited

**Belt HL580**

Art.: 6600479

Thanks to the freely placeable hook patches and internal loop pad, belt HL580 can be combined with belt LT465. The resulting Velcro connection ensures that it remains secure, whatever the activity.

**Product group: Belts**Modularity Durability Serviceability 

Weight: 336 g (Size L)

EDELRID *e*

Small packing volume

Can be worn as a  
trouser belt**Edelrid abseiling belt set 2**

Art.: 1000553

An abseiling belt that satisfies all tactical requirements was designed in cooperation with Edelrid. Removable leg straps with quick-release fasteners give the user maximum room for maneuver. The belt can also be used as a trouser belt and for securing holsters. The belt has been certified to EN 12277 Type C.

All other belts (except LT465) can be combined with the abseiling belt set. The belt from this set is also available as an independent article.

Weight: 490 g (Size L)

Dimensions: 89-104 cm (Size L)

**Admin panel HL117**

Art.: 6600257

In addition to compartments for documents and pens, admin panel HL117 has a fold-out map pocket that is readily accessible during operations. All transparent pockets are made of flexible, yet robust plastic film that protects the contents from moisture.

Weight: 154 g

Dimensions: 12 / 17.5 cm

Outer fabrics: Cordura, Hybrid Laminate

**Admin pouch, forearm GS085**

Art.: 6600935

Forearm office GS085 has room for maps, ID papers, pens and similar. When folded out, it has three compartments with transparent film that reliably protects documents from moisture. The special fastener enables silent opening and closing.

Weight: 159 g

Dimensions: 11 / 16.5 cm

Outer fabric: Cordura

Limited

### Multi-purpose pouch narrow HL310

Art.: 6600345

Elastic straps on the inner front and rear side hold the equipment securely in the pouch. The side that rests against the body features a loop pad for securing equipment or inserts.

Weight: 83 g      Dimensions: 23 / 10 / 7.5 cm  
Outer fabrics: Cordura, Hybrid Laminate      Volume: approx. 1.75 l

Limited

### Multi-purpose pouch horizontal HL353

Art.: 6600361

The accessory pouch made of Cordura with halfway zipper is ideal for stowing away small items of equipment. The elastic band on the inside of the pouch keeps the contents safe and sound. Straps on the narrow outer sides are for securing additional objects.

Weight: 69 g      Dimensions: 10.5 / 18 / 4 cm  
Outer fabrics: Hybrid Laminate, Cordura      Volume: approx. 0.75 l

Limited

### Multi-purpose pouch, vertical HL354

Art.: 6600362

This tried and tested pouch offers plenty of room for transporting equipment of all kinds. The contents can be secured by means of an elastic strap. Narrow bands are provided on the outside bottom and sides for attaching further equipment with carabiners.

Weight: 69 g      Dimensions: 18 / 10.5 / 4 cm  
Outer fabrics: Cordura, Hybrid Laminate      Volume: approx. 0.75 l

Limited

### Multi-purpose pouch, Velcro, horizontal HL174

Art.: 6600298

This spacious pouch can be connected to plate carriers by means of a hook pad. An internal loop pad on the side that rests against the body is for mounting additional inserts. A patch on the outside provides space for marking the pouch.

Weight: 98 g      Dimensions: 10 / 24 / 9 cm  
Outer fabric: Cordura      Volume: approx. 2.0 l

### Multi-purpose pouch, narrow PA109

Art.: 6600042

Multi-pouch PA109 has an internal loop strip on the side that rests against the body for Velcro-attachable small items, and an elastic strap for securing larger items of equipment.

Weight: 131 g  
Outer fabric: Cordura

Dimensions: 23 / 10 / 7.5 cm  
Volume: approx. 1.7 l

### Multi-purpose pouch PA021

Art.: 6600014

In addition to the spacious design, the pouch has four rows of MOLLE loops for mounting further pouches and items of equipment. A D-ring on the inside bottom is provided for connecting material and tools to the pouch.

Weight: 177 g  
Outer fabric: Cordura

Dimensions: 23 / 15 / 7.5 cm  
Volume: approx. 2.5 l

### Multi-purpose pouch, vertical PA054

Art.: 6600027

Multi-purpose pouch PA054 enables small parts to be conveniently stowed. The halfway zipper makes for simple handling.

Weight: 84 g  
Outer fabric: Cordura

Dimensions: 18 / 10.5 / 3.5 cm  
Volume: approx. 0.65 l

### Multi-purpose pouch, horizontal PA053

Art.: 6600026

The zip fastener at the top of the horizontal pouch ensures quick access to materials, e.g., batteries, lighters and similar small parts, even when wearing gloves.

Weight: 92 g  
Outer fabric: Cordura

Dimensions: 10.5 / 18 / 4 cm  
Volume: approx. 0.75 l

Limited

**Hydration bladder pouch, 2-liter HL057-2/2**

Art.: 6600209

The lightweight carrier enables a 2-liter hydration bladder to be transported and secured with an integrated elastic band. The pouch can be mounted on the back of plate carriers and protective vests with the aid of PALS straps.

Weight: 170 g

Dimensions: 34.5 / 17 / 5 cm

Outer fabrics: Hybrid Laminate, Cordura Volume: approx. 2.9 l

**Hydration bladder pouch, 2-liter PA057-2**

Art.: 6600030

Identical to HL057-2/2, made of Cordura only.

Weight: 203 g

Dimensions: 34.5 / 18 / 5 cm

Outer fabric: Cordura

Volume: approx. 2.9 l

Limited

**Medic pouch HL300**

Art.: 6600338

With its simple handling, the pouch ensures that medical equipment (e.g., IV kit) is quickly at hand in critical situations. The tubular body of the pouch enables the inlay with medical equipment to be pulled out on both sides.

Weight: 87 g Dimensions: 13 / 18 / 3.5 cm  
Outer fabrics: Cordura, Hybrid Laminate Volume: approx. 1 l

**Medic pouch PA012**

Art.: 6600009

The two-part system essentially consists of an outside pouch with removable inside pocket. The inside pocket unfolds when pulled out, giving quick access to the medical elements. A slide-in pocket provides space for flat wound dressings.

Weight: 210 g Dimensions: 23.5 / 13 / 7.5 cm  
Outer fabric: Cordura Volume: approx. 2.2 l

**Medic pouch PA127**

Art.: 6600047

The pouch with removable inside parts for medical supplies features an all-round zip fastener. A red tab gives fast access to the inner panel that can be completely detached from the pouch.

Weight: 140 g Dimensions: 12 / 10 / 6 cm  
Outer fabric: Cordura Volume: approx. 0.7 l

**Medic pouch tourniquet PA129**

Art.: 6600049

The pouch can safely accommodate a combat application tourniquet and similar large objects. The robust material protects the contents from contamination. A pull-tab at the front enables the pouch to be quickly opened.

Weight: 45 g Dimensions: 17 / 8 / 4 cm  
Outer fabric: Cordura

Limited

**Fanny pack LT479**

Art.: 6600724

Fanny pack LT479 enables speedy medical assistance. On the flap is a compartment with scissor insert, and a lower storage compartment provides space for an emergency medical kit. The removable hip belt enables the pouch to be mounted on the plate carrier using separately available clips.

Weight: 268 g  
Outer fabrics: Cordura

Dimensions: 12 / 29 / 20 cm  
Volume: approx. 4.8 l

Limited

**Medic pouch HL633**

Art.: 6600420

When folded out, the medic pouch has three rows of webbing on each side. These are for individual sorting with the supplied back-to-back. The pouch has an examination glove dispenser at the front. The main pouch and holder are each equipped with their own PAL system.

Weight: 185 g  
Outer fabric: Hybrid Laminate, Cordura  
Dimensions: 15 / 18 / 7 cm  
Volume: approx. 1.9 l

### Magazine pouch, multi-caliber

Thanks to the movable L-yoke, it is suitable for mounting most types of assault rifle magazines. The innovative pouch concept increases the flexibility when used with different magazines. The pouch is secured by two flexible PALS straps on the back.

Limited

### Magazine pouch multi-caliber, single HL119/2

Art.: 6600258

A pouch for many magazine types. Thanks to its innovative design, the multi-caliber pouch HL119/2 is suitable for most standard magazine sizes.

Weight: 85 g  
Outer fabric: Hybrid Laminate

Dimensions: 15 / 8.5 / 2.5 cm

### Magazine pouch, multi-caliber, single PA119

Art.: 6600046

The universal usability of multi-caliber pouch PA119 simplifies the search for a suitable pouch – this one covers most options.

Weight: 93 g  
Outer fabric: Cordura

Dimensions: 14.5 / 8.5 / 2.5 cm

Limited

**Magazine pouch, single pistol HL004-1/2**

Art.: 6600152

The lightweight pouch can be used with a standard pistol magazine. The contents are secured by a magazine clip and optionally by a cover flap or elastic cord with grip tab.

Weight: 40 g      Dimensions: 16 / 10 / 4 cm  
Outer fabrics: Cordura, Hybrid Laminate

**Magazine pouch, single pistol PA004-1**

Art.: 6600004

The magazine pouch is equipped with a removable pistol clip that enables magazines to be safely transported without the removable cover flap. The cover flap and PALS attachment are made of rugged webbing.

Weight: 55 g      Dimensions: 15 / 5 / 4 cm  
Outer fabric: Cordura

Limited

**Magazine pouch, double pistol HL004-2/2**

Art.: 6600154

Identical to magazine pouch, single pistol HL004-1/2, but with room for two magazines.

Weight: 92 g      Dimensions: 14.5 / 9.5 / 3.5 cm  
Outer fabrics: Cordura, Hybrid Laminate

**Magazine pouch, double pistol PA004-2**

Art.: 6601434

Identical to magazine pouch PA004-1, but with room for two magazines.

Weight: 105 g      Dimensions: 15.5 / 9 / 4 cm  
Outer fabric: Cordura

### Magazine pouch, double rifle HL001/2

Art.: 6600147

Equipped with a double fastening system, the cover flap can be secured by means of a Velcro fastener or additionally with the snap fastener. As an option, the flap can be inserted at the back. In this case, the elastic cord secures the magazines.

Weight: 86 g

Dimensions: 20 / 8 / 6 cm

Outer fabrics: Cordura, Hybrid Laminate

### Magazine pouch, double rifle PA001

Art.: 6600002

Identical to magazine pouch HL001/2, but the PALS attachment is made of webbing.

Weight: 115 g

Dimensions: 20 / 8 / 6 cm

Outer fabric: Cordura

Limited

### Magazine pouch, single rifle HL002/2

Art.: 6600149

To prevent the magazine from slipping out of the pouch, it is held in position by an elastic cord and a woven elastic band. The elastic cord is fitted with a convenient grip tab that enables the magazine to be quickly withdrawn from the pouch when needed.

Weight: 46 g

Dimensions: 14.5 / 9 / 2.5 cm

Outer fabrics: Hybrid Laminate, Cordura

### Magazine pouch, single rifle PA002

Art.: 6600003

An elastic cord with grip tab quickly secures a G36 magazine for which the pouch was designed. Additionally an elastic webbing keeps the magazine in position. The pouch can be attached fast and safely with PALS-straps.

Weight: 72 g

Dimensions: 14.5 / 8.5 / 3 cm

Outer fabric: Cordura

Limited

### Magazine pouch, double rifle HL104

Art.: 6600243

Developed for use with plate carriers, the pouch is mounted on the hook pad of the plate slot. This space-saving alternative can hold a large number of assault rifle magazine types. A woven elastic band on the inserts prevents the magazine from wobbling.

Weight: 64 g

Dimensions: 24 / 8 / 19 / 3 cm

Outer fabrics: Cordura, Hybrid Laminate

Limited

### Magazine panel, triple rifle HL098/2

Art.: 6600234

The triple panel for G36 magazines is easy to handle and robust due to the hybrid laminate, guaranteeing reliability in any situation.

Weight: 110 g

Dimensions: 15 / 25 / 3 cm

Outer fabrics: Hybrid Laminate, Cordura

Limited

### Magazine panel, double rifle HL494

Art.: 6600400

This panel offers room for two G36 magazines. Due to the securely sewn divider, the individual compartments can be used separately. The elastic cord on the two inserts enables the two magazines to be secured separately.

Weight: 72 g

Dimensions: 15 / 17 / 3 cm

Outer fabrics: Hybrid Laminate, Cordura

### Magazine panel, double rifle PA494

Art.: 6600088

Two G36 magazines can be transported side-by-side in the solidly constructed panel PA494. An elastic cord with grip tabs ensures that the magazines are firmly secured in the pouch.

Weight: 114 g

Dimensions: 15 / 16.5 / 3.5 cm

Outer fabric: Cordura

### Grenade pouch, universal HL095/2

Art.: 6600140

The horizontal Velcro fastener and length-adjustable push-in buckle enable the pouch to be individually adjusted to various sizes. It is thus the optimum solution for all standard grenade sizes and simple to use.

Weight: S: 54 g | L: 63 g

Dimensions: S: 13 / 5 / 6 cm | L: 14 / 7.5 / 6 cm

Outer fabric: Hybrid Laminate

### Grenade pouch, universal PA095

Art.: 6600001

Identical to grenade pouch HL095/2, but made of Cordura.

Weight: S: 64 g | L: 80 g

Dimensions: S: 13 / 5 / 6 cm | L: 14 / 7.5 / 6 cm

Outer fabric: Cordura

Limited

### Grenade pouch splitter HL007/2

Art.: 6600159

The hand grenade pouch of Hybrid Laminate offers a high level of reliability and security. The securing loop prevents the grenade's safety lever from being released if the securing pin is inadvertently pulled.

Weight: 56 g

Dimensions: 8 / 7.5 / 5 cm

Outer fabrics: Cordura, Hybrid Laminate

### Grenade pouch splitter PA007

Art.: 6600007

Identical to grenade pouch HL007/2, but the PALS attachment is made of webbing.

Weight: 63 g

Dimensions: 8 / 7.5 / 5 cm

Outer fabric: Cordura

### Grenade pouch 40mm, single HL015

Art.: 6600171

This pouch made of hybrid laminate offers safe transport for flashbangs or 40mm grenades and guarantees fast access. Depending on the handling mode, the grenades can be secured in the pouch by Velcro-attachable cover flap or elastic cord.

Weight: 30 g

Dimensions: 13 / 5.5 / 5 cm

Outer fabrics: Hybrid Laminate

### Grenade pouch 40mm, single PA015

Art.: 6600011

With this pouch the removable flap and PALS are made of rugged webbing material. When the cover flap has been removed, the grenade is additionally prevented from falling out by the elastic cord.

Weight: 41 g

Dimensions: 13 / 5.5 / 5 cm

Outer fabric: Cordura

### Grenade pouch 40mm 2er HL115

Art.: 6600255

Identical to grenade pouch HL015, but with room for two grenades.

Weight: 53 g

Dimensions: 15 / 9 / 5 cm

Outer fabrics: Hybrid Laminate

### Grenade pouch 40mm, double PA213

Art.: 6600065

Identical to grenade pouch PA015, but with room for two grenades.

Weight: 77 g

Dimensions: 15 / 9 / 5 cm

Outer fabric: Cordura

Limited

**Radio pouch, large HL017/2**

Art.: 6600174

The pouch provides a perfect fit for the Bundeswehr SEM 52. Safe transport is guaranteed by the Fastex fastening system and a Velcro fastener for stabilization of the radio.

Weight: 72 g

Dimensions: 22 / 7.5 / 5 cm

Outer fabrics: Hybrid Laminate

**Radio pouch, large PA017-1**

Art.: 6600012

Secured by a Fastex fastener, this pouch is ideal for transporting radios such as the SEM 52 and similar models. The lateral elastic bands and the Velcro fastener at the upper end of the pouch provide a secure hold and wobble-free handling.

Weight: 91 g

Dimensions: 18 / 8 / 5 cm

Outer fabric: Cordura

## Radio pouches

### Radio pouch, small PA017-2

Art.: 6600013

Individually adjustable hook strips allow the pouch to be adjusted to various sizes, making it suitable for use with all smaller radio and GPS devices. The horizontal safeguard with buckle fastener ensures safe transport.

Weight: 51 g  
Outer fabric: Webbing

Dimensions: 12 / 5 / 4 cm

### Radio pouch, Velcro-attachable HL175

Art.: 6600299

The Velcro-attachable radio pouch HL175 offers a practical extension for mounting radios and magazines. These pouches can be attached to all plate carriers and vests with loop pad on the front or a mount for padding on the inside.

Weight: 64 g  
Outer fabric: Cordura

Dimensions: 14.5 / 7.5 / 5 cm

Limited

### Radio pouch PA132

Art.: 6600054

This reliable pouch for transporting radios is particularly flexible due to the lateral elastic bands. They are secured by an adjustable cord and buckle fastener. This gives ready access to knobs and controls on the top.

Weight: 66 g  
Outer fabric: Cordura

Dimensions: 15 / 7.5 / 3.5 cm

Transparent viewing panel

Available in four sizes

### Packliner LT871

Art.: 6600965, 6600835, 6600790, 6600844

The waterproof packliner with roll closure and viewing panel is the ideal solution for clear organization of equipment. The oval floor gives stability and fits optimally in a backpack. All seams are welded, so that after three times rolling up the packliner is completely watertight. Moisture-sensitive objects can be safely stowed in the packliner, making it an alternative to rain hoods. Due to the small packaging volume in unused condition, the packsack can be readily extended if needed. A large viewing panel gives a good overview of the stowed objects. The packliner is available with volumes of 8, 20, 40 or 80 liters.

Weight / Dimensions:  
8 l: 145 g, 41 / 30.5 cm  
20 l: 260 g, 62 / 46 cm  
40 l: 360 g, 71 / 59 cm  
80 l: 530 g, 98 / 67

Outer fabric: Cordura

8L 20L 40L 80L

### Dump pouch, small PA056-S

Art.: 6600029

Manufactured of Cordura, the bag is quickly folded together and makes a meaningful addition to any equipment. The width of the opening can be adjusted by a cord.

Weight: 104 g

Outer fabric: Cordura

Volume: approx. 3.4 l

### Dump pouch, large PA056

Art.: 6600028

The large dump pouch PA056 has room for up to ten rifle magazines and, compactly folded together it can be used for transporting. The wide opening facilitates filling. The draw-string fastener safeguards the contents of the pouch.

Weight: 154 g

Outer fabric: Cordura

Volume: approx. 11.9 l

Limited

### Dump pouch, large HL056/2

Art.: 6600205

With the buckle fastener, the empty dump pouch can be packed to an extremely small size. It is ideal for convenient storage of empty magazines and other materials. An elastic cord closes the bag when folded out.

Weight: 130 g

Outer fabrics: Cordura, Hybrid Laminate

Volume: approx. 11.9 l

## Dump pouches

### Dump pouch, narrow HL062

Art.: 6600216

The compact, single-row dump pouch consists of lightweight packsack fabric and is easy to mount with the PAL fastening system. Simple handling makes it a reliable item of equipment for securely stowing empty magazines, medical waste and other materials.

Weight: 55 g

Volume: approx. 3 l

Outer fabrics: PE fabric, Hybrid Laminate

### Dump pouch, Velcro-attachable LT112

Art.: 6600597

The large loop pad enables the dump pouch to be mounted directly on a plate carrier without the need for MOLLE pads. A sharp tug opens the rolled-up pouch, making it particularly easy to handle.

Weight: 125 g

Volume: approx. 7 l

Outer fabric: Cordura

### Rifle sling GS110

Art.: 6600944

With the padded sling, even heavy weapons are comfortable to carry. It is secured by a two-point fixation of the assault rifle. Metal hooks provide a reliable connection to the weapon and enable quick release if needed. A metal clasp on the mid-section enables the strap to be adjusted in width. The increased sling width improves maneuverability, e.g., in the event of a change of side. A tightened sling enables unrestricted carrying of the weapon close to the body.

New

### Rifle sling LT989

Art.: 6601580

The elastic webbing gives the sling a high degree of flexibility and maneuverability. The single-point sling was designed for fast side changing and is particularly easy to handle.

#### Product group: Slings

Flexibility

Stability

Comfort

Weight: 130 g

Material: Webbing

Recommendation

### Rifle fixing strap LT278

Art.: 6600689

The weapon fixing strap with silent fastener provides for single-handed handling with the "pineapple" grip, even in the dark or with gloves. The strap is suitable for laser cut and 25 mm MOLLE systems. The grip is secured on the plate carrier by a hook.

Weight: 90 g

Material: Webbing

The shooting pouch is a lightweight alternative to the sandbag. Holders for upper- and lower arm enable flexible handling.

## Recommendation

Elastic cord at back

Side fastened

**Shooting pouch LT644**

Art.: 6600783

Despite its low weight, the shooting pouch adapts ideally and stabilizes the chosen posture when the user assumes a shooting position. The robust material can be used on any subsurface. For fast action, it is worn over an elastic cord on the elbow.

Weight: 226 g  
Outer fabric: Cordura

Dimensions: 12 / 20 / 7.5 cm

**Carrier bag THU015**

Art.: 6600972

For multiple uses and with larger patch area: the robust Cordura carrier bag can also be used to transport heavy loads. It also has adequate space for stowing a plate carrier and hard ballistic plates.

Weight: 204 g  
Outer fabric: Cordura

Dimensions: 41 / 28 / 9,5 cm  
Volume: approx. 10,9 l

**Pistol clip (with hook)**

Art.: 6601323

The pistol clip with Velcro fastener is retrofittable and suitable for all Lindnerhof pistol and MP magazine pouches. It guarantees the use of a pressure-free cartridge in the magazine pouch.

Weight: 20 g  
Material: Synthetic

Dimensions: 7,5 / 3,3 cm

**Fight Light MALICE clip, short**

Art.: 1000487

The re-usable plastic clips for mounting equipment with MOLLE/PALS are weatherproof and thermally stable. When the clips are properly closed, they can only be opened with the aid of a sharp instrument.

Weight: 6 g  
Material: Synthetic

Dimensions: 20,5 / 2,5 cm

**Fight Light MALICE clip, long**

Art.: 1000488

Long version of the Fight MALICE clip.

Weight: 8 g  
Material: Synthetic

Dimensions: 30,5 / 2,5 cm

### Alpha Tab 4.0

Art.: 1000752

All conventional grip tabs can be upgraded the new Alpha tab. It can be used with all pouches with an elastic band and grip tabs. Excellent tactile properties improve one's grip when wearing gloves and provide ease of operation due. Its unique shape prevents tipping, and it is always ready to hand.

Weight: 3 g

Dimensions: 3.5 / 2.5 cm

Material: Synthetic

### Spare parts kit LT517

Art.: 6601781

This set can be used for a wide range of purposes with Lindnerhof products. It consists of: 2x SnapOn repair buckle female (25 mm), 2x SnapOn repair buckle male (25 mm), 2x MOLLE Mojave Buckle 25 mm, 2x snap-in bar (for 25 mm webbing), 2x drawstring stopper

Weight: 80 g

Material: Synthetic

### Inserts, 4-part LT128

Art.: 6600608

The set consists of four hook panels with loop material on the front sides and back-to-back rolls for individual loop formation. In each case it comprises a panel with three elastic loops, four elastic loops, five fields of single-row loops and four fields of three-row loops.

Weight: 54 g

Material: Webbing

New

### Inserts 4x panel LT522

Art.: 6601744

Equipped with hook pad and four elastic loops on the front side, the hook panel is a versatile extension for every setup. The elastic loops offer room, among other things, for 40 mm grenades, flashbangs or similarly dimensioned objects.

Weight: 80 g

Material: Rubber band

**MX material: a new product developed by Lindnerhof. Lightweight, extremely tear-resistant and optimal for all missions.**

#### **Material preview: MX**

---

In our striving to satisfy the demands of the market and users, we invest in material development. Our goal has always been to exceed existing standards. Momentarily we are working on a new material that is outstandingly lightweight, tear-resistant and robust.
